Wessex *Quick-fix* dormer window surrounds designed to meet with the modern day requirements of off site fabrication as outlined by the report published by Sir John Eagan. The report identified the need for Buildability, Just in time delivery to site. Control of costs, Value for money. Factory controlled items produced to set quality standards, Avoidance of costly delays due to poor weather and the ever increasing shortage of skilled tradesman.

Wessex meet with all the requirements of the above and offer a service that is second to none
